EDUCATION

AGH University of Science and Technology, Cracow
Master of Engineering, Management and Production Engineering | 02.2020 - present

AGH University of Science and Technology, Cracow
Bachelor of Engineering, Mechanical Engineering| 10.2016 - 01.2020

PROJECTS

Uno
In this project I was focused on Object-Oriented Programming. It is my version of Uno card game. Each player has 7 cards at the beginning. The goal is to get rid of all cards.

My Portfolio
It is my personal portfolio which I based on Django 3. I also used some HTML, CSS and Bootstrap to make it look better from the frontend side. Link is here: https://jakubkwak.pythonanywhere.com

Tic -Tac -Toe
This is game known to everyone. Firstly I made a backend version of the game. Then I used PyGame library to make graphical user interface.
